

## A Proven Solution

### A Proven Solution

PowerSchool is the leading and fastest growing student information system (SIS) available today, supporting more than 8.5 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students and statewide deployments.

### Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student, while creating a collaborative environment for parents, teachers and students to work together to prepare students for the future. Access to real-time information allows student performance to be addressed in a timely manner.

### Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn, and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

### GreenPrint

Managing print consumption in an educational environment represents a huge savings opportunity. GreenPrint offers a suite of software solutions that enable you to tackle print consumption with a phased, measurable and verifiable approach for each unique part of your organization.

GreenPrint enables you to treat print waste as you would treat any other business problem, by quantifying the scope of the problem first and then applying a series of well-targeted solutions.

**GreenPrint's modular solutions include:**

#### GreenPrint Analytics

A turnkey, web-hosted data collection and print reporting tool. Analytics is invisible to users and enables management to quickly identify all printers, including locally connected devices, and to track print volume and costs.

#### GreenPrint Advisor

Educates end-users and guides them to low cost printers with the use of color coded messaging that is as simple to understand as a traffic light.

#### GreenPrint Preview+

Empowers users to identify and remove unwanted pages and images prior to printing. It also offers PDF creation and provides each individual their own individual print reports.

## About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication and simplify internal processes, such as scheduling and grading.

We believe that providing today's schools and districts with a choice of flexible, interoperable and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers or students.

## About GreenPrint

GreenPrint is an industry leader in print measurement and management software, and provides best-in-class solutions to eliminate unnecessary cost and waste associated with enterprise and individual printing activities. Schools and school districts have never faced tougher economic times in the modern era, and managing print waste is a simple and meaningful way to control costs and make scarce budget dollars stretch further.

GreenPrint's products help the education sector tackle print waste by providing unparalleled print data, educating staff and students about the high costs of print, and providing easy-to-use tools to help users make better print choices and eliminate print waste. GreenPrint's products have been released to critical acclaim in the Wall Street Journal, by CNN and many other publications.

Founded in 2005, GreenPrint is privately held and headquartered in Portland, Oregon.
